Berlin, 7th—A boy bitten by a mad dog and treated five years ago on the Pasteur system has just died of hydrophobia at Huddersfield.

The case is much discussed in scientific circles, as other persons have also died mad after the Pasteur treatment. Recently a child died in Milan. But none of the cases were the same as the present one.

A notable improvement has taken place in the relations between Bismarck and the Emperor, shown in the moderate tone of Bismarck's organs. In political circles it is thought that the Emperor and Government will do all they can to appease Bismarck's anger before the Reichstag re-opens.

Brussels, 7th—Cholera in Antwerp is now reduced to isolated cases, in which the patients mostly recover. Nothing new from other parts of the kingdom.

Spezia, 7th—King Humbert leaves to-night for Genoa on board the ironclad Italia. The Queen and the rest of the Royal family will reach Genoa to-morrow.

Rome, 7th—Government has decided to issue small notes to replace the silver that is being exported to France and Switzerland on speculation. It is hoped that this measure will supply the want felt in business circles.

The Vatican will allow the Catholics to vote at the Parliamentary elections on condition that the oath of fidelity to the present institutions be abolished. This has caused great rejoicing amongst the Catholics. The Liberal papers say that, whether they vote or not, they will be beaten. The new Parliament will meet on November 20th.

Madrid, 7th—Sagasta considers the fall of the Conservative Cabinet inevitable before the end of the year.

The Liberal and Republican papers attack the Government violently about the 50-million loan, and say that the country will be completely ruined if the Conservatives remain in power much longer.

(Per Havas Agency.)

Paris, 7th—In last 24 hours 41 fresh cases of cholera and 25 deaths.

King George of Greece arrived here this morning. He will go to Fontainebleau on Friday to return President Carnot's visit at Aix-les-Bains.

Berlin, 7th—Emperor William has given up his trip to Metz as well as the manœuvres, and the German papers of that city are very angry.

Brussels, 7th—The rumoured marriage of Prince Ferdinand of Este and Princess Clementine has been officially denied.

London, 7th—Scarlatina is spreading to an alarming extent. All the hospitals of this city are full of patients, and all the means adopted are impotent to arrest the epidemic.

Genoa, 7th—The French squadron arrived here to-day and has been enthusiastically received by the populace and the crews of the Italian ships in the Roads.

(To the "Prensa".)

London, 6th.—Cholera is decreasing every where except in Russia and Hamburg. In the latter place hundreds die daily, and in Russia thousands. In Havre the plague is gradually dying out.

Mr Gladstone has written a letter saying that he did not offer Labouchere a seat in the Cabinet, as there are certain drawbacks in connection with that gentleman which rendered his appointment impossible.

Berlin, 6th.—The Emperor has countermanded the autumn manœuvres.

THE FINANCE MINISTER'S REPORT.

There are many passages in this luminous report that deserve the most serious attention. We take the following :—

Manufactures

"It is very questionable whether the country is benefitted by spoon-fed industries, unless in exceptional cases. In the last few years a number of exotic and artificial manufactures have been created among us, by allowing the raw material to be imported duty-free, and imposing a heavy duty on the importation of the manufactured article. In this manner the Custom-house has been robbed of a large source of income, while the consumer has gained nothing, the price being maintained here up to the level of the duty.

"It is, at the same time, very clear that Buenos Ayres will not be improved by the creation of a great proletarian community. Let us consider for a moment the immediate result of hundreds of factories, employing thousands of operatives. It would be fatal to democracy. The owner or manager of a factory with 1,000 workmen could command 1,000 votes in any electoral contest.

"Popular education would likewise suffer, since these factories would employ thousands of children, who ought to be at school. But the injury to rural industries would be still greater, seeing that we have millions of acres suitable for pastoral or tillage pursuits, which are at present lying idle for want of hands. Nature has given us enormous wealth in this respect, immense tracts of fertile lands where there is room for numberless settlers to make themselves a home, instead of becoming a mere factory operative.

"There is also a grave economic danger inseparable from this sudden growth of "mushroom" manufactures, which have been stimulated by the depreciation of paper-money and the heavy import-duties. Suppose the paper-dollar were to improve in value, is it not likely that many of these factories would be forced to close their doors? In that case we should see thousands of operatives thrown out of employment. This would bring on so tremendous a crisis that the Government might be tempted to close the ports against European manufactures, and who can venture to say what the consequences would be to the country?

"Some of the new industries, such as the manufacture of artificial wines, are moreover most injurious to public health, the vilest concoctious, made up chiefly of alcohol, being passed off on the public as good wine.

"It is, therefore, the manifest duty of Government to stimulate the pastoral and agricultural resources of the country, and leave manufacturing industries to stand or fall on their own merits and by their own resources.

Shipping.

"The tonnage-entries in all the ports of the Republic in 1891 compare with those of 1885 as follows :—

	1885	1891
	Tons.	Tons.
Sea-going.....	3,601,000	5,275,000
River trade....	2,952,000	2,495,000
Total.....	6,553,000	7,770,000

The figures for the port of Buenos Ayres shew thus :

	1885	1891
Sea-going.....	1,626,000	2,108,000
River trade ...	492,000	946,000
Total.....	2,118,000	3,054,000

Those for Rosario were as follows :—

	1885	1891
Sea-going.....	480,000	458,000
River trade....	710,000	380,000
Total.....	1,190.000	838,000

Those in La Plata were as follows—

	1888	1891
Sea-going	230,000	110,000
River trade.....	39,000	125,000
Total.....	259,000	235,000

Taxes on Real Estate.

"The possession of immense tracts of land is an evil of the most alarming kind: it is the "latifundia" of the Romans, with its terrible consequences, and ought to be checked by special taxation. Otherwise it is only a question of time when our rural population will be involved in the same agrarian conflicts as we see at present in Ireland.

"When one man is allowed to become master of 40 or 50 leagues (400 or 500 sq. miles) of land the humble tiller of the soil is reduced to slavery and all his profits find their way into the pockets of the land-owner. We must, therefore, leave no stone unturned to break up immense estates into small holdings. For this purpose it would be well to adopt the new Land-tax of New Zealand, which increases in percentage according to the extent of the property.

City Taxes.

"There are two taxes collected for the Nat. Government in the city of B. Ayres. The Contribucion or Property-tax and the Patentes or trade licenses yielded as follows :—

Year	Contribucion $ currency	Patentes $ currency
1885.....	1,259,000	778,000
1886.....	1,599,000	833,000
1887.....	2,038,000	859,000
1888.....	2,151,000	1,091,000
1889.....	3,147,000	1,531,000
1890.....	4,246,000	1,593,000
1871.....	3,449,000	1,908,000

It must be observed that the Government receives only 30 per cent of the Contribucion, the Board of Schools taking 40 per cent and the Municipality 30 per cent. This tax rose 100 per cent between 1888 and 1890, owing to the fictitious values that prevailed during "the crisis of progress," but in 1891 we reduced the valuation nearly 15 per cent. As regards the Patente tax we only get 65 per cent., the remainder going to the Municipality."

Here we suspend our extracts for to-day, but we cannot allow the occasion to pass without congratulating the public on the fact that many of the principles which we have for several years advocated in these columns are now so warmly adopted by the Finance Minister. Every man in the Republic who is not blinded by personal interest will admit the force of Mr. Hansen's arguments and the clearness of his views. Happy will it be for the country if his successor in the Finance Department see matters in the same light.

OUR LONDON LETTER.

POSTCRIPT.

(From our own Correspondent.)

July 29th.

Everything to-night or rather this morning of the 30th, for Big Ben has long since sounded midnight, is as calm as ditchwater. The new moon is glistening in a cloudless sky and the air is so cool and yet so balmy we cannot help contrasting our happy lot with those in the fine climate of New York, where hundreds of people are struck prostrate, and many killed outright, by a fierce and humid heat. No cholera, no epidemic, nothing to interest us but the last of the elections resulting in a return of a Gladstonian for Orkney and Shetland making with the recount in Greenock and return of Sir T. Sutherland, a Unionist a net gain of 40; but Lord Salisbury's 'black' Mr. Naoroji's seat for the Holborn district of Finsbury is not safe He got in by a majority of four. His rival Captain F. T. Penton has signed a petition containing no less than twenty indictments for personation, bribery, undue influence etc. The Liberals too have their petitions, and amongst others one against the Hon. Mr. Allsop who is accused of excessive liberality in the diffusion of beer; but it will be quite possible that the Liberal majority will be reduced to 39. It will serve. The Queen has indirectly allowed it to be understood that in the event of the passing of a vote of want of confidence in the ministry about the 9th. prox. she will send for Mr. Gladstone. The Liberal leader is now safe and well in Carlton Gardens and less occupied with the formation of a Cabinet than with the wording of the amendment to the address. Mr. Keir Hardy has returned to his senses after the recent excitements and recommends the Newcastle men to support Mr. John Morley should the Tories run a man against him. It begins to look now as if we were all settling down in anticipation of an ordinary Gladstonian ministry and an early adjournment, whilst we go to moor and stream, leaving political events to unfold themselves in the spring of 1893. Sir Charles Gavan Duffy KCMG, tells a *Pall Mall* interviewer that Mr. Gladstone's majority of 40 will do very well, but that the Home Rule Bill of 1886 will not do; and he advises Mr. Gladstone to issue a Royal Commission to take evidence on Home Rule during the recess. The old bill he says has serious blemishes, some of them nearly incurable. He does not fear any difficulties on the part of the Parnellites.

* * *

The late Duke of Devonshire left in personality nearly £1,800,000, not a farthing of which does he leave outside his family. He was no believer in the gospel of wealth. Mr. Carnegie, the Messiah of that gospel, is now residing with his wife in the wilds of Perthshire, 30 miles from the nearest telegraph station. He steadily refuses to be interviewed, in regard to the state of affairs at Homestead, but he desired an adventurous pressman who trudged through Perthshire, to Mr. Carnegie's retreat, without meeting a single human being, to make it known that for three years past he had never taken any active part in the management of the works, but that he had every confidence in those who were at the head of the business. Our latest accounts from Pittsburg represented a settlement of the dispute with the workmen as imminent: the Company agreeing to a new scale of wages. The American press is almost unanimously indignant at the outrage on private Jams committed by Colonels Streater and Hawkins and General Snowden,, who are to be prosecuted for assault and battery and conspiracy to defame with damages at 10,000$. I assume that you are long since informed of the barbarous punishment of Jams for cheering the strikers at Homestead. In any case you will find the particulars enclosed.

We are in receipt of pretty trustworthy and detailed news from Uganda where it appears King Mwanga who has come over to the Protestants and Maxim guns. Last week he was represented to be a vile savage. Now we may expect to hear that he is a most estimable person and devout. I do not know whose fault it is, but there is an awful lot of lying going on in Africa East and West. In the latter quarter Lieutenant Migon the French explorer seems to have been unhappy in his relations with the English Niger Company, whose chairman, Lord Aberdare, has been at the pains of refuting the Frenchman's statements. The Germans too endeavour to lay the blame of their recent defeat at Kilima Njaro upon the hapless and spotless English missionaries, who I suppose are mortals like the rest of us. I expect that all round, it is a question of seven of one and five of the other. On matters of statement of fact, although I am no jingo, I lean quite one in favour of the Englishman, even if he be a Scot and a Missionary. We have the same difficulty in ascertaining the truth in regard to the recent squabble in Morocco. The Central Press correspondent was present at the interview between Sir Charles Ewan Smith and the Sultan, and he assures us that Sir Charles, instead of acting the bully was only too mild in his behaviour.

This being Friday, I have nothing to report in Finance as there is nothing on the subject worth noticing in the daily papers. Everything is very still, but the accounts from America are better, and there is a more hopeful tone in the market than when I last wrote. Argentines are steady. Such is the heat in New York that the people who can stand the temperature at all transact business in their shirts and pantaloons.

LATEST FROM MONTEVIDEO.

Wednesday Evening.

The official organ states that Government has received advices from the Paris bankers in regard to the five million loan It would appear that the bankers in question have already formed a syndicate and are ready to send the money, as soon as the Government has signed the bond. It is probable that the proceeds of the loan will be received here next month.

Captain Lacerda, commander of the Matteo Grosso Flotilla, has arrived from Corumbá in a very dangerous condition of health.

The Chilian Minister, Señor Guerrero, left to-day in the Portugal for Rio Janeiro.

The financial committee of the Senate have reported favourably on the bill for coining three million silver dollars.

In connexion with the loan, which is the great topic of the hour, Mr. Alejo Rosell has received the following telegram from his brother, who is Uruguayan Consul-General in Paris :—The negotiations will be concluded shortly, and the deposit will be made."

In spite of this news stocks shew no improvement.

The official organ states that the Government has received several offers for the coining of three million dollars. The Chamber will sit daily until the Bill be passed.

The latest "canard" is that some sharp speculators have endeavored to bribe a doctor to declare a suspicious case on the next packet, with a view to cause a fall in stocks here and in B. Ayres.

The performance of Cavalleria Rusticana last night by the Pome troupe was a splendid success. The prima donna, Signorina Nuncio, an Argentine lady, was enthusiastically applauded. The tenor, signor Salto, has an excellent voice.

Mr. Edelmiro Queirolo, a well-known merchant, is dying.

PROVINCIAL NEWS.

Our newsy contemporary the *Capital* of Rosario calls attention to the outrages which occur daily in the settlements. The last atrocity reported is a cowardly assault by six Italians in the Umberto Colony on a hardworking and inoffensive Belgian, named de Brunch, who was left half dead on the ground with two of his ribs broken and other injuries, which render his chance of recovering a very doubtful one. The assailants were caught and cross examined, and it does not appear that they had any particular reason for perpetrating the outrage in question. We hope the Santa Fé court will make an example of these six ruffians. The settlers in Umberto are very indignant at the affair, which is not calculated to reflect credit on the colony. We note also that this settlement is at present being eaten up by millions of locusts.

A letter from the settlement of Maria Juana in Santa Fé states that a certain gentleman there combining those rare qualities which distinguish Pouh-Ba in the Mikado, is making a fortune in the quadruple capacity of school-master, apothecary, doctor and attorney, much to the indignation of the settlers, who, having never seen or heard of Sir Arthur Sullivan's composition, imagine this financial Proteus to be a unique specimen. He likes to be insulted too a la Pouh-Ba, for nothing short of 320 dollars would induce him to visit a patient six miles from the town. This, however, is not the worst of it. He got the money and then in his medical capacity visited the patient, whith whom physic did not agree, as death speedily supervened. The settlers, in the conviction that so vast an intellect, which seeks distinction and finds dollars in so many channels, is totally unsuited for so small a place as Maria Juana, are trying to have him removed to Buenos Ayres or Rosario, which no doubt would offer a larger field for the working of this multiple genius

The Intendente of Rosario appears to be a gentleman of violent and even revolutionary propensitie if we may believe our Rosario exchanges. We read that he is determined to instal the new corporation, whether the old body approve the elections or not, and if necessary he will call in the police and the fire-brigade to support him, the former to arrest the outgoing corporators and the other, no doubt, to quench the fire of indignation which so violent a proceeding is bound to kindle. We suppose Rosario will soon follow the example set by Cordoba and have two municipalities in which case we may prepare to see the Rosarinos going mad in the street, and pitching themselves into the Parana.

THE SANTA-FE LAND COMPANY.

The shareholders have just received the report of their directors, together with the balance-sheet to December 31, 1891. The state of affairs, although tending to improve, is hardly calculated to make directors and shareholders eager to meet each other with goodwill in their hearts and congratulations on their lips. There will, doubtless, be "something to be said on both sides" when the annual meeting takes place. The company was formed nine years ago, with a capital of £875,000. It owns upwards of 4,000,000 acres of land in Santa-Fe, on which a small town has been formed. The company carries on a general land business, and also rears cattle; but it has not, by one means or the other, been able to pay a dividend—indeed, at the end of 1890 it had lost £53,300. Perhaps it is a little unfair to say that the operations of 1891 simply resulted in an addition of £25,509 to the debit balance, and yet such is actually the case, although there are mitigating circumstances. Is the Santa Fe Land Company in a better condition to-day than it was when the accounts that lie before us were made up, or is it in a worse position? According to the report, the Board has made arrangements with an experienced public accountant in the River Plate to visit the estancia every three months to agree valuations, make an audit of the accounts, and report thereon to the directors "who regard this plan as possessing additional security well worth the expense." Haply the labours of this gentleman and the telegraph have brought the information of the director up to midsummer.

In the report the directors refer with great satisfaction to the improved condition of business affairs in the River Plate, more especially to the very considerable reduction in the gold premium, and, "although the accounts now presented do not show the effect of this reduction in the value of gold, the directors feel that those for the present year will show that steady improvement in the company's general situation has become apparent." Yes; but the directors have more than a mere "feeling" on the point, surely. As to the stereotyped remark about the improvement of the Argentine, it is, no doubt, perfectly true; but the shareholders, at the last meeting, did not generalise in this way. They attributed the misfortunes of the Santa-Fe Land Company to a particular cause—the mismanagement of the directors—although, to be sure, an amendment, in effect, dismissing then failed to secure adequate support. The Board, for its own part, showed an easy disposition to throw the blame upon an ex-manager of the property, who was said, in particular, to have grossly over-valued certain assets; but the ex-manager was on the spot to defend himself. He positively declined the role of whipping-boy, maintained the accuracy of his valuations, and turned upon the directors with bitter recrimination. He revealed, incidentally, the interesting fact that there had been five local directors of the Santa Fe Company and seven managers during about seven years. An increase of population is indispensable to the prosperity of the company, and its property is avowedly ill-situated for the attraction of immigrants.

The most reassuring paragraph in the report is that which records that the estate has now become self-suppo ting in the sense that drafts upon London have stopped; except for the payment of the land-tax, or 'Contribucion Directa', nothing has been remitted to the River Plate for over two years. The directors "advise that this conservative policy should be continued, and that any capital required for the legitimate development of the estate should be provided out of the proceeds of the sale of land, cattle, and other productions." But if it cannot be provided in this way? An attempt to raise capital for the great timber possessions of the company was avowedly a failure. Finally, the lawsuit which has been in progress for six years still drags its weary length along; in fact, the directors have been moved to taking the truly disperase step of "reviewing the whole situation in conjunction with their solicitor." Some of the items in the account are interesting.

"Management in the Argentine Republic" cost, during 1890, no less than £2,099, which is a substantial increase on the previous expenditure on this head but the Board at length dwell with satisfaction on the quality of their manager, and, no doubt, if the labourer perfrom his task well, the shareholders will deem him not unworthy of his hire. The outlook in the Argentine is, without question, better than it has been for a long time, and if the Santa Fé Land Company is ever to do any good for itself, now is the time. If it be true, as we are informed, that not one of the London directors has taken the trouble to personally acquaint himself with the property, it would not be a bad plan for one or other of them to do so. At last year's meeting the chairman frankly stated that the property of the Santa Fé Land Company could notbe managed in London. No doubt; but it would, at any rate, be more satisfactory for the shareholders to hear something more actual and reassuring than academic platitudes about the Argentine gold premium.—*Financial News.*

PRIVATE BANKING.

Mr. Editor,

I can give your correspondent "Ex-Banker" some information—though not official—on the tax payable by private banks. We must distinguish between provincial and federal capital. B. Ayres banks in the province are classified in three categories and pay $3,000 for first class. The Banco Popularin Mercedes pays $1,500 for the present, for of course they reserve the right to raise the amount yearly, and the tendency to do so is plain.

RACING NOTES AND ANTICIPATIONS.

A very interesting programme, consisting of 7 well-filled events, has been arranged for the races to-day in Belgrano, and, notwithstanding the counter attractions of Hurlingham etc., a good attendance is assured. The principal event of the day, the Premio La Milla, does not promise to bring out a large field; but, should Eridan, Stone Cross and a few others face the starter, an exciting struggle should result.

The following are our selections for the various events :—

Premio Campana—Putú
" Sunchales—Shilda
" La Milla—Eridan
" Baradero—Huracan or Arazá
" San Nicolas—San Carlos or Santa Lucia
" Rosario—Remolacha
" Zarate Robert le Diable.

The following are our selections for the Hurlingham races :—

The Polo Scurry—Lightfoot.
The Paddock Stakes—Daiman.
The Vayo Stakes—Linterna.
The September Hurdle Race—Whitelegs.
The Ayrshire Cup—Arabe.
The Hurlingham St. Leger Stakes—Enchantress.
The Pony Steeplechase—Laddie.

BELGRANO TRAIN SERVICES.

Mr. Editor,

I would like to draw the attention of the Traffic Supt. of the Buenos Ayres section of the Central Argentine Railway to the great irregularity of the arrival at Belgrano of the train due from Tigre at 9.02 a.m. it being from 5 to 10 minutes late every morning.

I trust the Supt. will have this remedied, as the majority of passengers who travel by this train, are clerks who have 10 be at their offices at a fixed time.

ALFA CULTIVATION.

Mr. Editor,

The other day a subscriber of yours was inquiring about Sr. Funes's Alfalfares in Rio Cuarto. Allow me to inform him that although they still exist in a flourishing condition at Rio Cuarto, Sr Funes has for some years past been busily engaged in turning these wilds into alfalfares "á temporal" (without irrigation); and if the inquirer would like to see three or four square leagues of fine alfalfares he should come here.

Yours truly,

FOOTBALL.

QUILMES ENGLISH SCHOOL CLUB v. ST. ANDREW'S SCOTCH SCHOOL.

This match was played on Saturday afternoon in splendid weather on the Quilmes Athletic Club Ground at Bernal, where, by the kind permission of the Club Committee, the boys of the English School are allowed to play.

The play on both sides was excellent, each team possessing some exceptionally good young players. The Quilmes team, however, from the first showed themselves the stronger, and in spite of a spirited defence the Scotch School had to acknowledge themselves losers by five goals to nil.

For the English School Club Pott proved a tower of strength, while the good play of Muir, Cunningham, Graser, Daniel Lean and Ernest Beckwith as goal keeper, was particularly noticeable. Mr. Christie acted as Umpire for the Scotch team and Mr. R. Clark junr. for the Quilmes Club, the Rev. C. F. Luckman acting as referee.

Through the kindness of a few ladies tea was provided for the boys in the Club pavilion. The following were the teams :—

Quilmes English School Club—F. Muir, G. Beckwith, R. Lean, W. Bate, D. Lean, J. Pott, J. Fraser, E. Beckwith, H. Marrs, E. Clark, W. Cunningham.

St. Andrew's Scotch School—J. Watson, D. Watson, J. Baldock, J. Brown, E. Fresco, H. Oxenford, G. Naghten, A Richmond, R. Brown, N. Forrester, G. Christian.

RAILWAY ITEMS.

An unpleasant feeling was caused yesterday by the publication in an evening paper of an official report, charging the Central Argentine Railway with having defrauded the State by importing goods under the cover of a privilege which the companies enjoy of importing materials free of duty. The report, which is vigorously worded, states that this is the "biggest fraud of which the State has been a victim," and that a fabulous quantity of goods was sold by the company. We should like to hear the other side of the question. In the meantime the Government have appointed a special committee to report on the affair.

The N. R Board have asked the Government to appoint a lawyer to act for the Board before the courts in the prosecution of railway companies for the non-payment of fines. However the Contaduria Nacional are only half in favor of the idea, for in an official report, over which we had occasion to glance yesterday, we note that the C. N. recommend the appointment of a simple 'procurador' for the purpose. Fines on the guaranteed railways say the C. N. may be levied by simply deducting the amount from the guarantees. We suppose the local boards of the railways interested will have something to say to this proceeding.

The local board of the North East Argentine have asked Government to approve certain modifications in the plans approved for the construction of the railway from Monte-Caseros to Corrientes and Posadas. Amongst these modifications we note the substitution of a ten-metre bridge for a 6 metre one at kil. 45, and two bridges for the proposed viaducts in the Cañada Mala and at Avallos The advisability of these modifications and others of minor importance is fully set forth in a careful report drawn up by Mr. C. Lewall C. E. who is the manager of the railway in question.

THE DEPUTIES.

Dr. Gilbert took the chair at 3 pm..

The inhabitants of Gualeguay sent in a petition that the proceeds of the sale of the Entre-Riano Railway be devoted to erecting of a Normal School there.

The President of the Dynamite factory petitioned for a heavier import tax on sulphuric acid.

Deputy Alurralde was granted leave of absence for ten sittings,

The Constitutional Committee recommended the sanction of the commercial treaty with France.

Deputy Quesada presented a Bill to give $200,000 to the Municipality for sanitary purposes. It was sent to Committee.

The members stood up to honour the memory of General Necochea.

A long debate about the Extinction of Locusts then ensued. A dozen members spoke eloquently on the inspiring subject, and the discussion was adjourned, and the House rose.

EDITOR'S TABLE.

The doctors put everybody in good spirits yesterday by declaring that the cholera case was only of the "nostras" description, which a simple nostrum would cure.. It appears that the worthy Frenchwoman who has given the town such a fright ate not wisely but too well at dinner and got a sharp attack of indigestion in consequence. "Voila tout."

This being a strict holiday, we say "au revoir" to our readers till Saturday morning.

The weather looked rather Santa-Rosa-ish yesterday, and it's as likely as not that there will be a general rise in umbrellas to day. The traditional gale has not yet come.

Go down to Dock Four to-day and have a look at almost the full strength of the Argentine Yacht Club: the Nemo, Gaviota, Hortensia, Macá and Pacu, all tight little craft.

The Leibnitz is the next mail steamer for Europe, on the 12th, mails closing at noon on that day.

Another shocking police outrage is reported from Mendoza, the victim's name being Ross, presumably an Englishman, who had half his nose cut off by a slash from the ruffianly 'vigilante's' sword, because he denied being drunk.

Our Museum creeps on with petty pace from day to day. The latest gem we have been promised is a copy of the *Times* of June 21st 1815, containing a full description of the "king-making victory" of the 18th, on the field of Waterloo.

The recent Lord Mayorial ukase against milking cows in the streets will have to be revoked. The hubbub in all the families in town is tremendous.

A nice affair is reported from Montevideo where some unscrupulous speculators offered a doctor a liberal 'tip' if he got up a couple of cases of cholera, to frighten the roofs off the Bolsas on both sides of the Plate.

A friend writes us from London to enquire about Mr. George Fitzmaurice, better known as Don Jorge Fitzmaurice. When last heard of, in 1885, he lived at Posadas, Misiones.

We publish on another page the announcement of grand fete and bazaar to be held on December 8 and 9 towards the funds of the new Anglican Church Building in Quilmes. Mr. A. W. Rooke has generously placed his charming estate, which extends for many squares, and commands splendid views of the River Plate and Buenos Ayres, at the disposal of the ladies who form the committee. Among the list of patrons we notice Church and State, united as ever, with the names of the elite of our English Society, which promises well for the success of the undertaking. The movement recently made by the English residents in Quilmes in establishing an Anglican Church has resulted in such success that a permanent Church building has become an absolute necessity, and Quilmes intends to have it. Quilmes seems to be going ahead, and well merits it, for of all our suburbs none are more charming.

There is a letter at the Scotch Church for Dr. Fleming, addressed 57 Calle Rivadavia, and he is requested to send for it.

In reply to enquiries as to the projected tour to the Chicago Exhibition on the Cook principle, we understand that the start will be on April 4th next, and the places to be visited are New York, Niagara Falls, Walkin's Glen, Thousand Islands, one month at the Worlds' Fair Chicago, Denver, Salt Lake City, Yellowstone National Park, Puget Sound, Yosemine Valley, San Francisco, Mammoth Cave of Kentucky, Washington, Philadelphia, Boston, Newport etc., arriving again in Buenos Ayres, October 6th, 1893. The price of the ticket will include steamer and railroad fares and first class hotels. Excursions will also be organised for three or four months. Particulars can be had by applying at Calle Florida 250. Interpreters, baggage men and all necessary for a first class tour with all possible comfort will be supplied without any extra charge.

The Return Lawn Tennis match will be played at Rosario to-day. The following team representing the Buenos Ayres Lawn Tennis Club left for Rosaria last night: Messrs. Still, Knox, Bridges, Ker-Seymer, Verschoyle, Gumpert, Evill and Keevil.

At long last the English medical profession is to be represented in the House of Lords in the person of its most distinguished member. The Beerage and the Cottonage, Shoddyage etc. etc., have had more than their share of coronets for a long time past, and it is now the turn for the noblest of the learned professions to put in an appearance in the Upper House. A London correspondent writes :—"I have information from a personal friend of Sir Andrew Clark's that one of the Peerages to be bestowed by Mr. Gladstone on his accession to office will be given to his old friend and medical attendant. Sir Andrew is, of course, a Scotsman, and has reached the foremost place in his profession by dint of hard work and great ability. The occasion will be the first on which such a distinction, has been conferred on a member of the medical profession, and is a step in the right direction, and a welcome change from the bestowal of honours on mere party and decayed hacks. It is, I understand, proposed to bestow a similar distinction on another eminent doctor."

We have to thank our talented musical friend Mr. Gustavo Nessler for the latest of his always charming compositions for the piano, "Suspende el Arco, Melodia Argentina," a sweet and plaintive love ditty which we strougly recommend to our fair readers, and which we feel certain will become popular amongst them. It is on sale at Halitzky's 1316 Rivadavia.

Our readers in the carrier-pigeon line will be glad to learn that an ingenious and successful experiment to protect carrier-pigeons from hawks or other birds of prey has just been made by Signor Carlo Andreini, of Florence. He has constructed a very small whistle, which can be fastened under the pigeon's wings, and the sound of which preserves the bird from attack while on its journey. Several birds so protected have made long and successful journeys in Italy. The weight of the whistle being under 3½ grammes (or about one-eighth of an ounce) it does interfere with the bird's flight.

The groaning and gnashing of teeth amongst the butchers of town since Mr. Casey's new meat market was started is something to make the long victimised public weep with revengeful joy. Mr. Dawson, the English butcher at the head-quarters of the new company, corner of Paseo Colon and Calle Venezuela, is doing such a roaring trade that he has been forced to increase the number of his assistants. Every morning shortly after dawn his stall is besieged by the public from all quarters, and at 8 a.m. there is not a bone for a dog left. Those who want to get the splendid new meat must send for it early. We understand that Mr. Dawson will soon have carts to deliver meat all over the city and at Flores and Belgrano. The "tired" meat of the Corrales is more dangerous eating than ever now, when Cholera threatens.

Sport and Pastime asks us if the name Mulhall is found on the Map of Ancient Ireland by the Four Masters? Yes, there is a slice of Ossory (now Kilkenny) marked O'Mulhall. The name occurs also in King James's army list and in Prendergast's history of the conquest. It is unmistakably Milesian.

Weather dull in London yesterday. The news came via Lisbon in twelve minutes.

The description of the Matteo Bruzzo in a gale, in yesterday's *Nacion*, was very amusing. None of the passengers were English, or they would not have allowed Father Neptune to frighten or knock them about in such tremendous fashion. The wave that sent passengers, chairs, tables, tumblers, hot soup and roast beef, potatoes, plates, knives, forks and salt-cellars all flying across the saloon in a confused heap must have been a rattler.

The suicide of Mr. Joseph B. Pidwell, an old British resident at Montevideo, is announced. He died of his wound in the British Hospital there on Tuesday.

Our friend Ciacchi has gone to Rio to bring his Italian opera company, which will debut here on October 1st in the Politeama. By the way, we were asked yesterday how this new American verb, to debut, is pronounced: dee-boo; dee-but; dee-bute, or debut? We must refer the inquirer to some of our resident North American cousins.

There wil be a grand Christy Minstrel performance on Monday evening at the Vaudeville Theatre, for the benefit of the new church of the Passionist Fathers. The performers are real American "darkies," no imitation.

The free passage unpleasantness in the Interior department must be serious, as several clerks in that office and the Minister's private secretary have been locked up on suspicion.

Several timid people's hair turned suddenly grey yesterday after reading the *Nacion's* terrifying account of the sanitary condition of the Boca; and we heard, but cannot vouch for the fact, that the shock to some individuals was so great that it also affected their hats, which turned from black to white in sympathy with their hair. We are not surprised. The Boca has always been the plague bed of this city. All the sanitary hysterics about it now we have heard dozens of times before. Nothing is done to permanently improve the condition of the district; when danger comes there is the usual fright, fuss and fooling; a perfunctory attempt at sanitation is made, and when the danger passes, filth, neglect and indifference rule the roast again till the next alarm.

Strangers from Europe should go see the Spanish fetes at the Recoleta today. All the costumes and customs of old Spain are to be seen at this traditional jollification.

There is a pale cast of thought on the visages of farmers owing to the early appearance of the Locusts this year. Their advanced guard, has arrived in Tucuman and Santa Fe. It is time for the Extinguishers to fall into line; but, if they don't do better than last year they may as well remain at home at ease.

ON 'CHANGE.

Wednesday, September 7th 1892.

Gold ruled steady this morning, in spite of the official denial of the reported case of cholera Meantime, the speculation ruled very brisk and bullish, and several leading money-brokers bought heavily all morning, thus confirming the suspicion that important purchases are being made for certain high quarters. Twenty five thousand ounces changed hands at the first ring; the price opened at $53, fell to 52.90, rose steadily and closed at $52.20, say 226 88/100 premium. About one thousand sovereigns were sold at $16.45 to $16.50, say 227.37/100 premium. The market ruled very hard.

Patriotic Bonds were slightly weaker than yesterday in a dead-and-alive market, price closing at 72.40 for cash and Saturday. Internal Bonds were neglected; a few thousand were sold for the end of the month at $68.20. There are few prospects of activity in both these stocks before the last week of the month.

Catalinas shares continued active and there was a firmer tone in the speculation. About nine thousand shares were sold: the price for cash opened at 10.30, rose to 10.80, and closed at 10.40. The price for the end of the month was at one time at 11, but closed at 10.50. A large business was done in Obligaciones of the Banco Constructor de la Plata, but the sentence of the Civil Judge, Dr. Garay, had a depressing effect upon prices which fell as low as 1, closing at 1.20. Nearly fifty thousand Obligaciones were sold this morning; nothing was done in the parent stock. The sentence of the Judge confirming the ownership of Mr. P. Gartland in the Pasage Juarez Celman is a great blow to the bank. We think that the same sentence affects also the ownership of several other valuable properties which figured once in the balance-sheet of the Bank.

Municipal Consols are still sinking; they fell to 58 to-day and closed heavy at the rate. La Plata Cedulas were very dull, but prices were firm.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Ounces—
For cash.. 24,697 at 53-53.10-53-52 90-53-53.10-20.

Sovereigns—
For cash.. £900 at 16.45-50.

Patriotic Bonds—
For cash.. 7,500 at 72 40-00.

The auction yesterday at Messrs Bullrich's was one of the most brilliant successes of the season. The rams sold were from the well-known estancia of Lozano Bros., one of the best Rambouillet estancias in the country. The following are the details of the sale:—

"One ram at $2,600; buyer, Tomas Torres; 1 do at $400, do Messrs Imaz and Rivero; 1 do at $600, do Mrs Atucha; 1 do at $500, do Jose Olaso; 1 do at $900, do B. Lynch; 1 do at $1,400 and 1 at $1,150, do Dr. Alston; 1 at $800, do Mrs Atucha; 1 at $500 do Messrs Imaz and Rivero, 1 do at $650 and 1 at $500, do, Messrs Imaz and Rivero; 1 at $1,300, do Dr. Alston; 1 at $800, do Dr. Alston; 1 at $500, do Miguel A. Martinez de Hoz; 1 do at $400 by same; 1 do at $350, do Rickette; 1 do at $450 by same; 1 do at $600, do Frederico Martinez de Hoz; 1 do at $450, do Carlos Kelly. Total of sale $16,350. Average $767.50 each ram."

Another sign of improved times is the purchase yesterday evening of the fine Terrero house in Calle Reconquista, alongside the Banco de la Nacion, 17x35, for £28,000 stg.; buyer, the German Bank. The premises are at present occupied by the French Bank, the Credito Real, Provisora and other companies, and are admirably situated for the German Bank, whose business in this market is rapidly extending. It is really worthy of special remark that a year ago it was current in London and in Paris that this bank would not continue business in the Plate; but things have undergone a most wondrous change for the better since then; and now with increased capital and a bank building of its own, it promises to take a front rank in the market.

The following passengers left to-day to catch the Pacific steamer Galicia for Europe:—W Templeton, G Morgan, Mr and Mrs Andrews and child, J Wiston, M Lopez, A Crooke, G Amendabur, M J Espelse, A Monassa, Mrs Downing and 2 children, Mr. M Flood, J R Babbett, Mr and Mrs J M Shaw and family and 31 third class.

Exchange ruled firm and active to-day, but rates were erratic. Sterling was reported at 47⅞d to 47¾d. Francs were done as high as 5.02 and marks at 4.05.

Mr. M. Davies has applied to the Government for a subvention to run a steamer regularly from this port to Chubut.

The cheques of the Provincial Bank closed to-day at 37½% discount, those of the National Bank at 21¾% discount. Bonos of the La Plata Mortgage Bank closed at 22.10% of their face value.

The gold market ruled weak at the second ring and business was dull. Seven thousand ounces were sold for Friday; the price opened at 53 10$ and closed at 53$, say 225,65% premium. Nothing was done in sovereigns. Patriotic Bonds ruled very firm, advancing to 72.60 for Friday and 72.80 for end of the month. Internal Bonds were steady at 68 for Friday. Catalinas closed at 10.30 and Obligaciones at 1.30. Municipal Consols rose slightly to 58.20. La Plata Cedulas were firm at 29.80 to 30.00.

We call attention to an advertisement in another column offering a fine chacra for sale alongside the East Argentine Railway at Chajari. That colony is making great strides and the maize grown is of exceptionally good quality. Mani gives an extraordinary yield, and the oil-factories of Messrs. O. Budge and Co. and E. Rolin have done a very large business this season.

Captain Pritchard, Commander of the s.s. Mercurio, who arrived up to-day from Patagones was welcomed on Change. All the barrqueros down there have come up with him; we suppose to get money to take down for wool purchases. It has rained continuously and in torrents down there; and there is such a plethora of grass that some hay sent down on spec. can't be sold. Mr. Adamson, agent of the Plateuse in Patagones, has come up. The Rio Negro is falling so rapidly that the s.s. Limay had to be unloaded and the cargo sent on in bullock-carts. The Mercurio came up in 70 hours; she brings 450 tons salt and will sail on 15th inst.

Mr. Templeton, one of our leading brokers, took leave of his friends on 'Change to-day. He sails for Old England in the Galicia. We wish him a pleasant trip and hope to see him soon back.

The Boulevard Committee was in a flurry to-day, and the news was there will now be no Boulevard, owing to Mr. Balbin's valuation of Mr. Goyo Soler's back premises to his house on Calle Victoria, which face on the Boulevard. The sum total is 222,000$ m/n, which the Committee thinks exorbitant. We note that the valuation put on the ground or site is 500$ m/n per square metre; the rest is for the walls, buildings etc. which have to be pulled down.

The following are the latest advices from Montevideo about the liquidation of the English Bank down there:—

"The liquidators of the English Bank of the River Plate in liquidation (Messrs J. MacCrindle and Juan Ramon Gomez) have called a meeting of the creditors of the Bank for the 12th inst to decide on the acceptance or otherwise of the six months' prorogue of the 'moratoria' just granted by the Legislature. At the same meeting the resport of the liquidators will be presented and the creditors will be called upon to select a representative as liquidator in place of Dr. Garcia Lagos or to re-elect him, as his term of appointment expired at the end of last month. Creditors will have to obtain an entrance ticket to the meeting from the Bank, and this ticket will serve for voting."

Respecting this liquidation we have the most favorable advices. The liabilities, which in July 1891 were $11,282,000 have been reduced to $2,285,000, which shows that they have liquidated about 80% in the year. With such facts we are much astonished at all the nonsense published in the Montevideo papers, as really the conduct of the liquidators seems to merit the highest praise, and we hope after the meeting that the liquidators will publish the statement in some of the city papers.

Mr. Manuel Ajiron, of Rosario, owner of the tramway to Saladillo, is about to change his horse tramway for steam, which will be a great economy both in time, animals and labour.

The great news to-day in the market was from La Plata announcing the financial plan of the Provincial Minister of Hacienda, which if carried out will doubtless be productive of much good, since it will at once make a market for Provincial Treasury Bills, it will pay off the debt of the Government to the Mortgage Bank, which amounts to 26,819,500 in Cedulas paper and 50,000 in Cedulas gold, and on these Cedulas the Government owes three years back services, interests and amortizations. The Mortgage Bank holds as security 400 leagues of land upon which the Cedulas were issued. The Minister's project will also pay off the debt due by the Mortgage Bank to the Provincial Bank which amounts to 14,470,712$ m/n and 900,157 gold, but these figures do not include the back interest due to the Provincial Bank. The Minister's plan is based upon the sale of 400 leagues of camp in the 5th Section of Buenos Ayres, of which we notified our readers some time back. The land in order to cover the debt must sell for over 25,000 dollars per league cash, or say, double that amount payable in Provincial Treasury Bills or Provincial Bank cheques. At present these lands may be considered worth about 10,000 dollars cash, and if stocked, settled on and with good water, worth 20,000 dollars, giving the buyer time, as the Government will probably sell these lands on easy conditions. It is very likely that the Basque sheepfarmers and squatters who have been living there for many years, paying neither rent nor taxes, will outbid the public in the purchase of these lands, which have proved to be excellent for sheep wherever there is sweet water found. Most of these lands support on an average about 5,000 sheep to the league. A league of land in Lobos is worth 240,000$ and supports 20,000 sheep. Farmers and others can therefore form a judgment as to the two lands. The whole project will now go before the Provincial Legislature when we shall have an opportunity of writing more at large on this interesting subject.

The Finance Minister has allowed Sr. Uribellarea to exchange 45 National Bank shares for 1892 Bonds.

The Bateman Legacy arbitrators will meet on Friday in the office of the Minister of the Interior.

CHARLES OLMI
A SPLENDID PROPERTY
9 yards front by 30 deep

Seven rooms, solidly built, bath-room, w.c., conch house, plastered ceilings and boarded floors.

2118—Cochabamba—2118
between Pasco and Rincon

Upset price: $8,500 m|n

If I take into consideration the splendid state of the property, the rent it gives ($125 m|n per month) and the pretensions of the owners in that neighbourhood, the conviction is forced upon me that the upset price of $8,500 m|n is ridiculously and absurdly low.

It is only because the owner is forced to leave the country that such an opportunity as this could arise.

On Sunday, 11th of September
at 1 o'clock sharp in the afternoon

I will proceed to sell at public auction with the upset price of $8,500 m|n this magnificent property, which can be seen any day and evening after Thursday 8th.

Titles are perfect, and can be seen at my offices

566—PIEDAD—566

The furniture which adorns this house will also be sold by auction, according to the aviso following this one, on the same date, Sunday, 11th inst.
